

COP17 FAITH ACTIVITIES

- ⇒ November 27—multi-faith rally at the Kings Park Stadium to issue a clear call to political leaders of the world that for the sake of the planet and in obedience to our creator, COP17 must arrive at an agreement based on moral principles. Join us! Gates open at 12noon with live performance by artists. Main programme kicks off at 3pm
- ⇒ December 3—the people of faith in Durban will be joining the Global Day of Action march through the streets of Durban.
- ⇒ December 4—a prayer service in Durban with all faith communities from the country, region and globally, to pray for success of the negotiations.

ACT NOW FOR CLIMATE JUSTICE!

Our demands for COP17

- Commit to a fair, ambitious and legally binding agreement and to a second commitment period for the Kyoto Protocol to ensure the survival of coming generations.
- Set clear short and long term targets for carbon emission reductions that keep average global temperature increases well below 1.5 degrees centigrade and to support solutions that contribute to healing the earth.
- Ensure there is adequate finance for adaption in Africa. Such finance should come from historically polluting nations in recognition of their ecological debt and be additional to existing development aid, governed inclusively and equitably under the United Nations.
